

HOW TO USE OUR EDUCATION AND CAREER RESOURCES

Go online and you'll find loads of research articles, and all related to different fields. Whether you download the PDF or read the article online, you'll find that each research article contains all the information you need to help you learn more about STEAMM (science, tech, engineering, arts, maths, medicine).

www.futurumcareers.com/articles

Read about fascinating research projects that are happening right now
Imagine how the research affects the world around you

Got a question for the researcher? Write your message in the comments box online. (See next page for details)

Find a short summary of the research project in our researcher profiles

Explore new fields of research and learn about different career options

Discover opportunities that are open to you in different fields (apprenticeships, internships, courses)

Find out which courses to take and how much money you could earn

Find out how the researchers got to be where they are today

For example, Lori worked in fashion and marketing before getting into forestry and insects!

Get top tips from scientists

ACTIVITY SHEETS

Go online and you'll find activity sheets for all of our featured articles: www.futurumcareers.com/resources

See if you can answer questions about the research in the article

Try out activities you can do in school, college or at home
